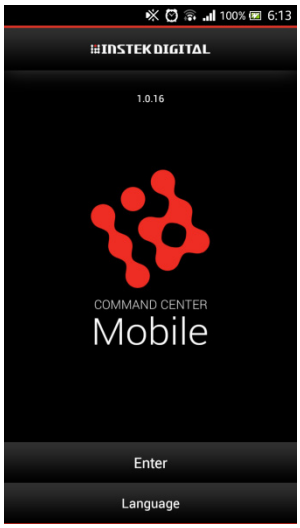
July 2015

1 | HOME

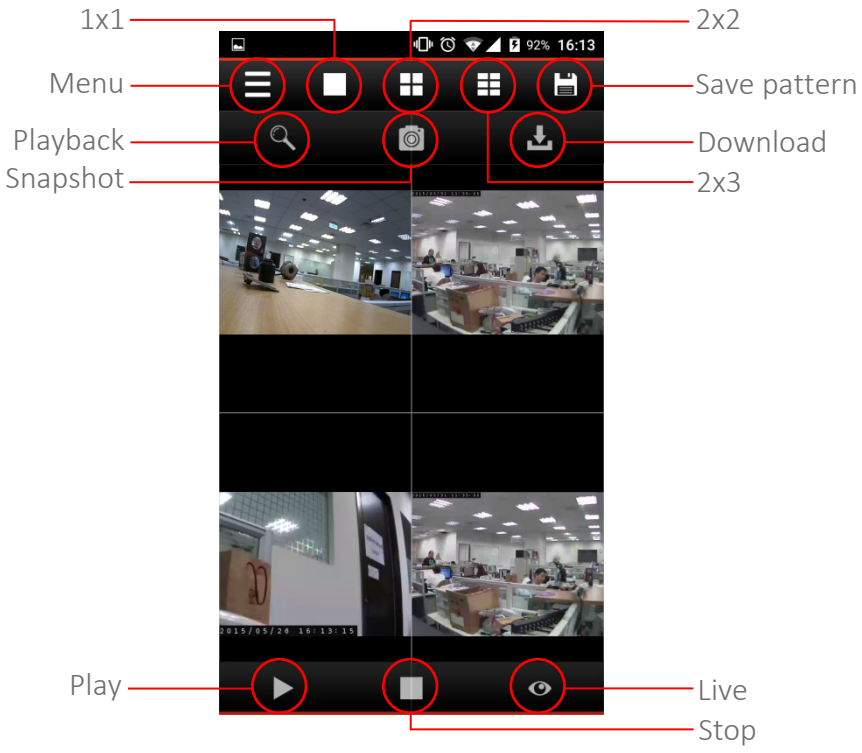
On CCMobile home screen – you see two features:

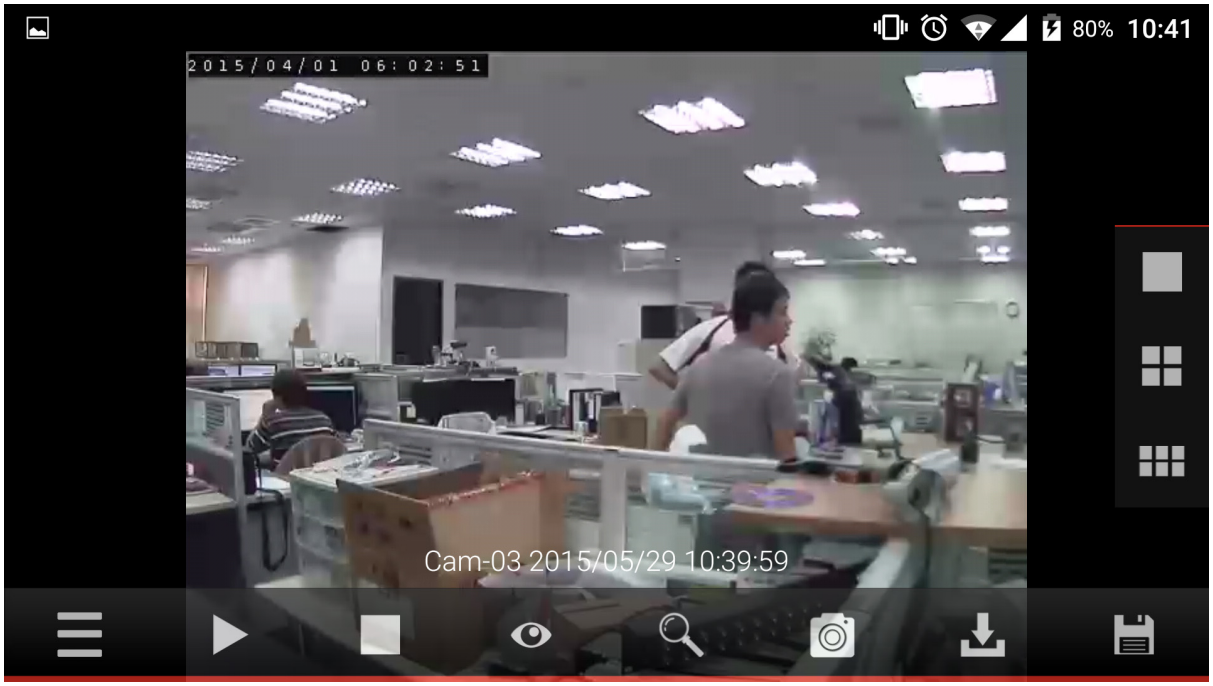
1) NVR List
Click NVR List to enter CCMobile.

2) Language
CCMobile support the following languages English, Traditional Chinese and Simplified Chinese.



1.2 | OVERVIEW





Horizontal view.

1.1 | SETUP AND CONFIGURE

To setup and configure the NVR – please take the following steps:

1) Enter CCMobile;
2) Click on the **Menu** icon;
3) Click on **Device Configuration**;
4) To manually add a NVR – click on the **Add** ⊕ icon;
5) Enter the following information:
   - Name;
   - IP-address;
   - Command port;
   - RTSP port;
   - User name;
   - Password.

Note: *the default command port number is 59999 and RTSP port number is 554. In case you login externally or 3G/4G – please alter these port numbers.*

1.2 | Network Setup:

Using internal network to connect to the NVR
To get connected to Instek Digital' s NVR – select Menu (top-left button) and Device Configuration. Click the add button – type the NVR Name, IP-address/Domain Name,

Command Port(59999), RTSP Port(554), User Name and Password and click the confirm button.

Using 3G or 4G to connect to the NVR
When you are using 3G or 4G make sure to configure the router. Open the Command port(59999) and RTSP port(554) in order for the smartphone and/or tablet to communicate with the NVR.

For example,

NVR1 command port : 192.168.0.100:59999 / router (168.95.1.250:n)
Type “n” in CC Mobile as command port
NVR1 command port : 192.168.0.100:554 / router (168.95.1.250:n+1)
Type “n+1” in CC Mobile as RTSP port

Type router IP(as above example, the public IP will be 168.95.1.250)

Then you can use 3G or 4G to link to the router's address, the preset port will be transfer into the port in internal private LAN.

2 | VIEW VIDEO

2.1 | LIVE VIEW

To live view surveillance videos – please take the following steps:

1) Select a **layout** (1x1, 2x2 and 2x3);
